

Basis Schaden

Basis Schaden der Dinos

Der Basis Schaden ist je nach Kreatur verschieden und im Spiel nicht als Wert aufgeführt.

Lediglich der Modifikator "Melee Damage" ist ersichtlich.

Hier ein Beispiel. Der [Carno](#) hat einen höher geskillten Melee Damage, trotzdem macht der [T-Rex](#) mehr Schaden:

Dinosaurier	Base Damage	Meele Damage	Total Damage
Carnotaurus	50	270%	$50 * 270\% = 135$
Tyrannosaurus	80	230%	$80 * 230\% = 184$
